### **Background**

Wellington-Dufferin-Guelph (WDG) Public Health produces quarterly financial reports for Board of Health (BOH) approval. The figures in these reports are presented on the basis which they are reported to the Ministry of Health, which differs from the financial statements that are reported under Public Sector Accounting Standards.

The Agency's main budget consists of the sub-budgets numbered (1) through (11) below. In addition to the main budget, WDG Public Health receives community grants for projects which are aligned with, and build upon, the work of WDG Public Health in the community. The community grants are numbered (12) through (15).

The Agency's cost-shared budget comprises approximately 86% of the overall budget. This funding is provided on a 61-39 split basis between the Ministry of Health (the "Ministry") and the three Municipalities served by WDG Public Health. Appendix 1 provides details of the financial activities that relate to these budgets for BOH review.
