Additionally, residents and their caregivers who are fully immunized may choose to have close physical contact beyond what is required for care and supervision, such as hugging. For more information read the Government of Ontario's [media release](#).

## Pre-Registration for COVID-19 Vaccine

Launched earlier this week, our website now has a new "[Check My Pre-registration Status](#)" tool for people who have not yet received an appointment invitation or their first dose of the vaccine. This new tool will help people check that their pre-registration was successful and ensure there are no delays to booking their vaccination appointment as soon as one is available to them.

To follow Health Canada guidelines, our pre-registration is now open to all WDG residents currently 12 years of age and older. If an individual falls within multiple priority categories, choose the one highest on the list of categories on the pre-registration site.
