

Symptoms of COVID-19?

Please go to an assessment centre if you have at least one of the following symptoms:

- fever
- new onset of cough
- difficulty breathing
- chills
- fatigue
- headache
- sore throat
- runny, stuffy or congested nose
- lost sense of smell or taste
- pink eye
- difficulty swallowing
- digestive issues (nausea/vomiting, diarrhea, stomach pain) or
- for young children and infants:
 - sluggishness or lack of appetite
 - multisystem inflammatory vasculitis

Asymptomatic, risk-based testing is also available for:

- People who are concerned that they have been exposed to COVID-19. This includes people who are contacts of or may have been exposed to a confirmed or suspected case.
- People who are at risk of exposure to COVID-19 through their employment, including essential workers (e.g., health care workers, grocery store employees, food processing plants).
