

## Program/Service Information Report

# 2019 Q3 Safe Water Program Summary

January – September 2019

---

**To:** Board of Health

**Meeting Date:** November 6, 2019

**Report No.:** BH.01.NOV0619.C22

**Prepared By:** Shawn Zentner, Manager, Environmental Health

**Approved By:** Christopher Beveridge, Director, Health Protection

**Submitted By:** Dr. Nicola J. Mercer, MD, MBA, MPH, FRCPC  
Medical Officer of Health & CEO

---

## Key Points

---

- The Safe Water program completed all required inspections and responded to all complaints regarding drinking water and recreational water.
- The mapped drinking water data base of private wells in Wellington, Dufferin and Guelph enables follow-up with residents with no recent record of well water testing to better target messaging on how to safely manage private wells.

## Program Requirements

---

### Compliance with OPHS and Accountability Indicators:

In compliance

Not in compliance. If not in compliance, provide additional information about the variance and how it will be addressed.

## Accountability Indicators:

2019 Safe Recreational Water Indicators	2019 Q1-Q3 Actual	Comments

# Class B Pools – Seasonal inspected	72/72	
# Splash Pads inspected	37/37	
# wading pools inspected	5/5	
# Spas – Seasonal inspected	2/2	
# Spas – Annual inspected	54/71	

2019 Safe Drinking Water Indicators	2019 Q1-Q3 Actual	Comments
# Small Drinking Water Systems (SDWS) Inspected. Seasonally inspected	45	Low risk SDWS inspected once every 4 years.
# AWQI Reported	57	37 MOE Systems 1 Non-Regulated HPPA System 19 SDWS
# BWA Issued	1	

## Highlights

---

All regulated inspections of small drinking water systems and recreational water systems were conducted in accordance with the Ontario Public Health Standards and Health Protection Act.

A data base and map of all private wells in Wellington, Dufferin and Guelph is being created based on the Well Water Survey conducted earlier in 2018. This will enable staff to follow-up with residents who have no recent record of testing their well and to better target messaging on how to safely manager their well.
