

SUBJECT: COVID Vaccine Documentation in COVax
Date: July 25, 2022
Pages: 1
To: Primary Care Providers
From: Dr. Matthew Tenenbaum, Associate Medical Officer of Health

COVID vaccine eligibility recently expanded to include children 6 months to 5 years of age starting this week, and individuals aged 18-59 years old. With this change in eligibility, Wellington-Dufferin-Guelph Public Health (WDGPH) is offering two Lunch and Learn events for Primary Care Offices to obtain a refresher in logging into COVax and entering an immunization in COVax.

Additionally, there are three links included in this advisory that you can review pertaining to setting up a COVax account, searching for clients and entering an immunization:

[Account Set-Up](#)

[Searching for and Creating Clients](#)

[Entering an Immunization](#)

The link to the Lunch and Learns are as follows:

[12:00 pm, Tuesday, July 26 \(30 min\)](#)

[12:30 pm, Tuesday, August 2 \(30 min\)](#)
